AUR20720 - Certificate II in Automotive Vocational Preparation

This course is designed to provide students with a basic introduction to the automotive industry.

Course overview

Students undertaking this course will learn a range of tasks relating to identifying and inspecting mechanical and electrical components and systems of light vehicles. This is an ideal opportunity for candidates to increase their employability potential and this entry level course provides a pathway to an automotive apprenticeship.

Accredited units

To successfully complete this course, you must be assessed as competent in the following units:

- **AURAEA002** – Follow environmental and sustainability best practice in an automotive workplace
- **AURAF103** – Communicate effectively in an automotive workplace
- **AURAF104** – Resolve routine problems in an automotive workplace
- **AURASA102** – Follow safe working practices in an automotive workplace
- **AURETK001** – Identify, select and use low voltage electrical test equipment

- **AURETR103** – Identify automotive electrical systems and components
- **AURETR115** – Inspect, test and service batteries
- **AURLTA101** – Identify automotive mechanical systems and components
- **AURTTK102** – Use and maintain tools and equipment in an automotive workplace
- **AURTTA002** – Assist with automotive workplace activities
- **AURTTE003** – Remove and tag engine system components
- **AURTTJ003** – Remove and replace wheel and tyre assemblies

Course length

Five weeks of face to face college-based training and assessment.
